WORK EXPERIENCE

IT Engineer Since September 2022

Kalpataru Projects International Ltd Adama, Ethiopia

Provide technical support for over 110 employees, resolving issues related to hardware, software, and network connectivity. Install and configure software (SAP, Sophos firewall, Pulse VPN) and manage Windows Server 2016-2020. Conduct training sessions to enhance employee technical skills.

Intern From February 2022 to June 2022

Oromia Broadcasting Network (OBN) Adama, Ethiopia

Assisted in database management and maintenance, optimizing internal broadcasting systems. Supported WAN/LAN network setup and troubleshooting within a government environment.

SKILLS

Cybersecurity Measures	Implement security protocols to protect systems and data. Configure and manage firewalls and antivirus solutions.
Technical Support	Provide helpdesk support for employees, assisting with hardware and software issues. Troubleshoot connectivity problems and general IT inquiries.
Documentation	Maintain accurate records of IT infrastructure, processes, and inventory. Create user manuals and guides for software applications and IT processes.
Database Management	Manage and maintain databases, ensuring data integrity and security. Perform regular backups and recovery processes.
System Administration	Administer and configure servers, including Windows Server and various software applications. Manage user accounts and permissions in an Active Directory environment.
Network Configuration and Management	Set up and maintain local area networks (LAN) and wide area networks (WAN). Monitor network performance and troubleshoot issues. Configure routers, switches, and firewalls.
Programming Skills	C++, Java, HTML, JavaScript, CSS, Python.
